PSC DISMISSES OAKVIEW ESTATES WATER AND SEWER COMPANY REQUEST

JEFFERSON CITY—The Missouri Public Service Commission has dismissed water and sewer applications filed by Oakview Estates Water and Sewer Company, LLC (Oakview) because those applications lacked the information needed to determine if the requests were in the public interest.

On November 28, 2006, Oakview filed applications seeking Commission authority to provide water and sewer service in an unincorporated area of Warren County near Wright City, Missouri.

The PSC Staff filed a status report with the Commission on January 29, 2007, stating the applications lacked “significant information that is required by Commission Rules...and which the Staff needs in order to make an appropriate and informed recommendation.”

In subsequent status reports, the Staff advised the Commission that it had still not received the needed information to evaluate the request.

“Based upon its review of Oakview’s applications the Commission finds that Oakview’s applications are deficient in that they lack information required in applications for certificates of convenience and necessity to provide sewer and water service required by Commission Rules 4 CSR 240-3.305 and 4 CSR 240-3.600, respectively. Further, Oakview has had over seven months to bring its applications into compliance with the applicable Commission Rules, but has declined to do so,” the Commission said.

Both cases will be closed on July 21, 2007.
